custof, and when put to the real test, rob well made the logislature domogratic the Sectit are own houses, as Arnold has done in accepting law will doubtless to repealed, and there as I charitable relief with the knowledge that? the he free trade in liquors again for an indefinite Charles Lamb said, in reply to some one rovament of the poorer class that Coleridge takes a great interest in poor people Oh, se-never mind, Coleridge, he s tu-full of fun

COMPARATIVE USE OF BEER The following statistics concerning the post

Our climate makes one crave whishy rather than beer, a poison that is more source and potent and less expensive. The people bed drink for exhibitration are coming to use wine still exhibit "a wonderful also its inking." more than beer. The great proportion of the beer in this country is used before it has undergone its second fermentation. This takes place after drinking It taxes the strength of the stometh and other organs fearfully to have the fermentation go on within them. It is a and even those wear out if the strain is comtinued long. It is simply a question of time when the excessive drinker of beer or whiskor even wine must succumb. In the chimate of England and Germany, as observation shows men can drink less without its killing them than in the United States, and this, as we have said, is one reason for the difference shown by

In North Carolina forty four newspayers have ceased to exist since 1873 There is still a demand for newspapers, but it was found that less than helf the number could do all the business in the state, and so the local slines s consolidated into a smaller number of better journale. Local papers are legitimate enter-prises which deserve encouragement, but ico many of them are a burden on the public and a like cheap drug stores, only by aid of patent medicane humbugs

The Spectator tells a good story which illustrates the differences which exist between the seding in regard to inventors in England and I might go mto 1t, or, at least help him so working it out Whoreas if the boy came a you, as an Englishman, with his invention you sould tell him be wis a conceited Jackanaper and to mind his own business of blacking your boots." England has comparatively few it

According to the testimony of Mr Lorolland a representative before the senate labor committee, about 40,000 tens or 80 000 000 pounds of con are annually consumed in the country, over a pound and a half for every man, woman and shifd, and yet there are rformers who want the tax removed from tobac the ten on the clothes that people wear and the
